

NICMA HPL Plywood – Warm White

Building Product Information Sheet (BPIS)

Version: 1.0

Issue Date: July 2026

Product Description

NICMA HPL Plywood – Warm White is a premium decorative plywood panel manufactured with a lightweight **poplar core** and factory laminated with a durable **High Pressure Laminate (HPL)** surface in a Warm White finish. The HPL surface provides excellent resistance to scratches, impact, staining and everyday wear, making it an ideal solution for interior cabinetry and joinery applications.

NICMA HPL Plywood is designed for use in kitchens, laundries, commercial joinery, cabinetry, furniture manufacture and shopfitting where a durable, easy-to-clean decorative surface is required.

Product Range

Thickness (mm) Sheet Size (mm) Finish

16	2440 x 1220	Warm White HPL
18	2440 x 1220	Warm White HPL

Relevant New Zealand Building Code Clauses

When designed, installed, and maintained in accordance with this document, NICMA HPL Plywood may contribute to compliance with the following New Zealand Building Code clauses:

B2 Durability

NICMA HPL Plywood is intended for interior applications where it is protected from prolonged exposure to weather and moisture. The HPL surface provides a durable, hard-wearing finish suitable for commercial and residential interior use.

F2 Hazardous Building Materials

NICMA HPL Plywood does not contain hazardous materials at levels that would prevent compliance with Clause F2 when used as intended.

Intended Use

NICMA HPL Plywood is intended for non-structural interior applications including:

- Kitchen cabinetry
 - Laundry cabinetry
 - Bathroom cabinetry
 - Cabinet carcasses
 - Furniture manufacture
 - Joinery
 - Shopfitting
 - Shelving and storage
 - Commercial interior fit-outs
-

Scope of Use

NICMA HPL Plywood may be used where:

- A decorative HPL-faced plywood panel is required.
 - A durable, easy-to-clean surface is specified.
 - The product is installed in dry interior environments protected from weather and excessive moisture.
 - The product is installed in accordance with accepted building practices.
-

Limitations on Use

NICMA HPL Plywood:

- Is a non-structural plywood product.
 - Must not be used where structural performance is required.
 - Must not be used as structural bracing, flooring, roofing, diaphragm construction, or other load-bearing applications.
 - Is intended for interior applications only.
 - Must be installed and maintained in accordance with accepted building practices.
-

Design Requirements

The building designer is responsible for ensuring:

- The product is suitable for the intended application.
 - Appropriate fixing methods are specified.
 - The product is protected from prolonged moisture exposure.
 - Exposed edges are finished or edge-banded where required.
 - The product is used within its stated limitations.
-

Installation Requirements

- Store sheets flat, dry, and fully supported prior to installation.
 - Protect decorative surfaces from scratching during handling.
 - Install using suitable fasteners or adhesives appropriate for the application.
 - Finish exposed edges with suitable edge banding or edging.
 - Follow accepted industry installation practices.
-

Maintenance Requirements

To achieve the expected service life of the product:

- Clean using a soft cloth and mild detergent.
 - Avoid abrasive cleaners or scouring pads.
 - Inspect periodically for damage to the decorative surface.
 - Replace damaged panels where necessary.
 - Ensure the product remains protected from prolonged moisture exposure.
-

Product Characteristics

Property	Description
-----------------	--------------------

Product Type	Decorative HPL Plywood
--------------	------------------------

Surface Finish	High Pressure Laminate (Warm White)
----------------	-------------------------------------

Core Species	Poplar
--------------	--------

Treatment	Untreated
-----------	-----------

Property	Description
Bond Type	Interior Bond
Edge Profile	Square Edge
Intended Use	Interior Non-Structural Applications

Warning Statement

At the date of publication, NICMA HPL Plywood is not subject to a warning or ban under Section 26 of the Building Act 2004.

Country of Manufacture

China

NICMA HPL Plywood is manufactured by approved overseas manufacturing facilities operating under documented quality control and production procedures.
